Knitting Tips

Body: Cast on with crochet provisional cast-on method. Starting from shoulders downward, work left and right sides separately in pattern stitch A. Shape neckline and armhole by increasing at edges using lifted increase. However, when increasing more than 2 stitches, use backwards loop cast-on increase. Knit row 41 of right front, then pick up stitches from crochet chain (worked in advance for this purpose), then knit row 41 of left front. Continue, working in pattern stitch B, working increases at YO. Bind off in pattern. Make another body piece identical to the first.

Finishing: Remove provisional cast-on edge at shoulders; seam shoulders with crochet slip stitch seam. Seam sides with mattress stitch. Work edging A in the round along hem. Work edging B in the round along neckline and armholes. Crochet 2 cords, and seam them to body where indicated.

Abbreviations:

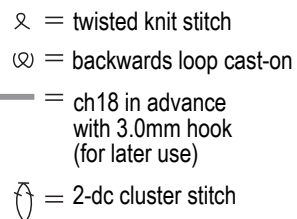

BO = bind off ch = chain dc = double crochet (US) inc = increase RE = row(s) even

= rows-stitches-times

= rows-places-stitches-times [for evenly spaced decreases worked across entire width of an item]. For example, 1-2-3-4 means "every 1 row, decrease 3 stitches in each of 2 places across the row; do this 4 times total."
