## Summary

✳️**Note:** Like all Japanese patterns, stitch counts given here for foundation chains do **not** include any chain sts needed for turning posts.

**Body of bag:** Work foundation chain to begin. Work body of bag in the following order: sc A, colorwork pattern stitch, sc B, and then sc C. For sc C section only, change the direction of work, so that the right side for sc C can be seen when looking inside the bag. (This is so that after the sc C is folded over, the right side will show.)

**Handles:** Work foundation chain to begin, then work in sc. Seam foundation chain edge to bind-off edge with right sides of handle facing each other using mattress stitch, but do not seam the 5 sts at each end, allowing the handle to flare out at each end.

**Finishing:** Fold sc A section to outside, then tack down with whipstitch. Seam handles to body of bag on the inside as indicated in finishing schematic. Place leather purse bottom piece over bottom round of the body of the bag. Working through the holes in the bottom pieces and the stitches of the foundation round, whipstitch the bottom and bag together.
