Summary

*Note: The foot is designed somewhat smaller than the stated foot length to account for stretching. (That is, it has negative ease.)

Cast on for left foot with long-tail cast-on method. Work in the round from cuff downward, starting with 14 rounds of k1p1 ribbing worked with 1 strand of yarn and 1 strand of elastic reinforcement thread held together. Continue with 8 rounds of stockinette stitch (worked with yarn only). Place instep stitches on stitch holder, then turn heel. Resume working all sts, working instep in pattern stitch and sole in stockinette stitch. Work 9 rounds of stockinette stitch, then separate toe section into two "pockets": one for big toe, and one for the other four toes. Work big toe and 4-toe "pocket" separately. Graft each section with Kitchener stitch. To make right foot, reverse shaping of left foot.

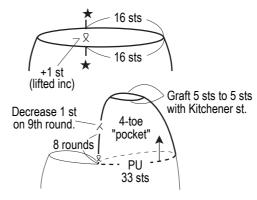

Abbreviations:

CO = cast on DPNs = double-pointed needles inc = increase k = knit k2tog = knit 2 stitches together OH = on hold (place on stitch holder) p = purl RE = row(s)/round(s) even ssk = slip, slip, knit #-#-# = rows/rounds-stitches-times

At ★ markings, divide big toe from the other four and begin working two separate sections in the round. From here onwards, instructions are specifically for left foot. (Reverse shaping from here onward for right foot.)
