Summary

※**Note:** Like all Japanese patterns, stitch counts given here for foundation chains do **not** include any chain sts needed for turning posts.

Body of bag: With kenaf yarn, work foundation chain. Work in sc in the round, working each stitch around cotton yarn (to enclose it with the kenaf yarn). Note that the rounds are worked continuously with no turning posts.

Finishing: Fold to outside at fold line; seam side sections indicated with sc worked through both layers. Continue to work sc along mouth of bag, working through just one layer. Join yarn at other end of mouth; work in sc.

※For both sides and mouth, work stitches around 2 strands of teknorote for stiffness.

Handles: Cut fabric or ribbon to measurements indicated. Sew as indicated in schematic. Fasten to body of bag where indicated using half backstitch.
