Summary

※Note: Like all Japanese patterns, stitch counts given here for foundation chains do not include any chain sts needed for turning posts.

Part A: Work magic ring to begin, then work sc and sc tbl in the round (see chart). Fold to inside along fold line indicated in chart, then secure in place by working slip stitch into second round from the right side.

Part B: Work foundation chain to begin, then work sc in the round (see chart). Fold in half inside-out, then whipstitch side and bottom together. Referring to finishing schematic, seam bottom gusset with half blindstitch, then turn right-side-out.

Finishing: Referring to schematics, seam the various parts together as indicated using whipstitch, leaving an opening to stuff the pillow. Whipstitch last round of part A to last round of part B. Insert stuffing, then whipstitch the opening together.
