Summary

✳️**Note:** Like all Japanese patterns, stitch counts given here for foundation chains do not include any chain sts needed for turning posts.

Body of bag: Work foundation chain to begin, then work in sc. After working bottom and side, bind off. Join yarn to foundation chain edge and work sc into foundation chain, then work second side in sc.

Gusset (make 2): Work foundation chain to begin, then work in sc.

Flap: Work first row of sc into top edge of one side of bag. Work rest of flap in sc.

Handle (make 2): Work foundation chain to begin, then work in pattern stitch. After crocheting handle, whipstitch as indicated in schematic using Cyrup. Then decorate handle with embroidery using and overcast stitch and 2 strands of Cyrup held together (see handle decoration chart).

Finishing: Referring to finishing schematics, place body and gusset together with wrong sides facing each other and seam using whipstitch. For each handle, seam center section of handle (but not the 8.5cm section at each end of handle) with whipstitch. Fasten magnetic snap to flap and side of bag where indicated. Crochet and assemble ribbon, then fasten to flap so that it covers the magnetic snap. Cut lining fabric and cardboard (or other stiff material) to sizes indicated in lining schematics. Glue fabric to cardboard as shown and allow to dry. Insert cardboard into bottom of bag with fabric facing up.
